Customer Needs & Digital Behavior

What Clients Need

Measurable leads & enrollment, transparent ROI reporting, WhatsApp response ≤ 30 min, affordable performance-tied pricing — not vanity metrics.

Key Behavior Trends

96.3M users, mobile +42% YoY. TikTok: 41.3M users (+25% YoY). WhatsApp 72%+ penetration — highest-converting EdTech enrollment channel.

Market Frustrations

Competitive Landscape & Spark SWOT

Competitor Models

Model	Share	Key Gap
Monthly Retainer	~75%	No ROI accountability
Performance-Based	~5-8%	Unavailable to SMEs
Hybrid Retainer+	~3-5%	Rare, no EdTech focus

PESTEL Analysis

Political

Egypt Vision 2030 & Digital Egypt drive EdTech demand.
MCIT's DEPI program validates Spark's credentials.

Economic

EGP devaluation makes ROI accountability non-negotiable.
SME funding growing via Flat6Labs, Egypt Ventures.

Social

60%+ under 30, mobile-first. 69% aged 18–34 engage with
brand content daily. Arabic dialect preferred.

Technology

Environmental

Online learning reduces carbon footprint — a brand story
element for corporate L&D clients.

Segment C — EdTech Startups (Secondary)

Segment B — Corporate L&D (Growth)

HR & L&D buyers. EGP 15K–25K/month. Pursue from M6 via LinkedIn.

Segment D — Government (Strategic)

Egypt Vision 2030 entities. Pursue M9+ for credibility, not Year 1 revenue.
